Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2014-2015 educational progress for Belleville High School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact Stacey Buhro for assistance.

The AER is available for you to review electronically by visiting the following web site:
<https://goo.gl/1Y0Bkm#StudentAssessment> or you may review a copy in the principal's office at Belleville High School.

One of our key challenges is ensuring that students who have been identified as the bottom 30% in each content area meet proficiency goals on the MME which have been set by the state of Michigan. To meet the needs of these students, we continue to identify these students and provide appropriate interventions for these students; including targeted reading and mathematics instruction.

State law requires that we also report the additional information:

- Belleville High School is comprised of students between 9th-12th grades.
- A major focus of the school improvement plan is increasing student achievement in all content areas; especially in the areas of mathematics, literacy and science. A driving force for our school improvement plan is using data; including SAT, P-SAT and M-Step, and perception surveys to help support the programs we have implemented.
- Belleville New Tech is a school within Belleville High School with a focus on project based learning and developing 21st Century skills:
- Curriculum at Belleville High School is currently being updated and aligned to follow the State's model. In addition, curriculum is being uploaded to Atlas Rubicon. If parents would like a copy of the current curriculum, please contact the Belleville High School office.
- 11th grade students were given the ACT test at Belleville High School during the 2014-2015 school year.

ACT results:

Subject	BHS	State
English	17.9	19.4
Math	17.1	19.5
Reading	18.5	20.1
Science	18.4	20.1
Composite	18.1	19.9

- As of the 2014-2015 school year, Belleville High School had a 38% participation rate at the fall parent-teacher conferences.

I am highly encouraged by the progress Belleville High School has made during the 2014-2015 school year. I expect continued success as we strive to provide high levels of learning for all students at Belleville High School.

Sincerely,

Abdul Madyun
Principal, Belleville High School
